

## Finding Handouts & Files:

Although the [Handouts & Files] icon appears before you login with your student ID, most of our documents are password protected.

Before you login with your student ID, you can see the [Handouts & Files] icon. However, you MUST complete the login process to see and access all of the files available to you. Most of our documents are private as they are protected by copyrights or contain student/parent contact information we do not want to share beyond the band community.

After you complete the login process, click on the [Handouts & Files] icon. You will see all of the files and folders available to you.
