Consistent moisture necessary to avoid the interruption of flowering

Bronze Leaf Begonia

More tolerable of the sun prefer afternoon shade
Water when the top inch or so of the soil is dry

Calibrachoa

Needs regular watering, every week in the growing season. Allow the soil to dry out completely between.
Full sun but will tolerate some shade

Impatiens

Water regularly - Moist Soil
Partial to deep shade

Coleus

They need fertile, well-draining soil
Usually performs best in areas with partial shade, though many varieties can also tolerate sun

Marigolds

Allow soil to dry somewhat between watering
Does not require deadheading
Full sun to partial-shade

Euphorbia

Partial to full sun.
Semi-moist soil

Petunia

Tolerant of heat
A thorough watering once a week should be sufficient (unless there are prolonged periods of drought in your area)
Partial to shade, but they will have fewer flowers

Gerbera Daisy

Full sun to partial shade
Soak the roots thoroughly, and then allow the top of the soil and the crown of the plant to dry before the next watering.

Snapdragon

Keep its potting soil moist but not soggy
Full sun to light shade

New Guinea Impatiens

Consistently moist soil. However, they cannot tolerate soil that is soggy or too dry.
Long bloomer for a sunny spot

Verbena

Sun-loving Water once per week at the base of the plant
Deadhead spent flowers to encourage more blooms

Ipomoea

Sun to Partial Shade.
Prefer consistently moist soil that drains well.

Angelonia

Prefers full sun
Moist, well-drained soil but they can withstand brief dry spells.

Spike

Full sun, but will also thrive in shade.
Water regularly to keep the soil evenly moist

Mason Band Flower Sale Reference Guide

Vinca Vine

Prefers to grow in partial shade but will even tolerate deep shade
Water only when the surrounding soil becomes completely dry. Apply water from directly to the soil surrounding the plants

Custom vinyl Comet 12" plastic patio planter

Asparagus Fern

It is best to shield from a lot of direct sun
Water asparagus fern regularly; the leaves will turn brown and crispy if it doesn't receive enough water

Custom vinyl Mason Band 12" plastic patio planter

Boston fern

Avoid intense, direct light
Water the plant thoroughly, using room-temperature water, until water runs through the bottom of the pot

Fuchsia

Grows in a range of sun and shade conditions.
Ideally, is given morning sun with afternoon shade, offering protection from the heat
Keep watering until you see some water begin to drain out the bottom.

Ivy Geranium

Likes full sun in the morning with light afternoon shade
Make sure that soil is moist but also well-drained
